Advantages

Designed with the finest quality materials, Tubclair AL is a flexible, very transparent, lightweight hose suitable for foodstuffs. Alcohols up to 50 % by volume can even be carried, up to a temperature of 40°C. Amongst its other qualities, it has an excellent service life and benefits from higher UV protection. Tubclair AL is available in a comprehensive range of diameters.

Connectors

Barbed or serrated type connectors with band or butterfly clamps. Swaged fittings are unsuitable.
